Dear readers...

Dream Week was, once more, as good as ever. Knitters come from all over the UK, a large group travels from Norway and others fly in from as far away as Canada and Australia. Leading up to it, my 'secret' has been to know about the launch of **DesignaKnit 8** on the **8th September**, but be sworn to secrecy. After discussions with **Matthew Bragg**, it was decided to feature it in the **October issue**, knowing that our publication day was also the official launch date. However, many of you are aware that subscription copies go out the week before and I couldn't delay the magazines for fear of missing the newstrade deadlines. I don't think I've ever prayed so hard that Royal Mail would under-perform but, of course, the gods did not intervene and copies reached a few of you before you left for **Dream Week**.

The subterfuge continued, because **Carol Hocknell** at **Metropolitan** was also keeping the secret and she'd arranged for Matthew to come to **Dream Week** on the Tuesday to launch his new programme and talk about it to many **DesignaKnit** enthusiasts. Carol takes bulk copies of **MKM** to sell in the shop so the October issue had to be tucked out of sight. I took up another boxful, which remained taped and sealed. The small number of ladies who'd already received their magazines had to be brought into the plot, so as not to spoil the surprise for the majority and between us, we succeeded. Matthew demonstrated his work of a lifetime and the magazine feature was uncovered for all to see. I don't think I'm telling tales out of school to mention that Carol has spent a lot of time testing and using the new programme. She also had to keep the secret from her **DesignaKnit** class held once a month at **Metropolitan**. **DesignaKnit 8** really is amazing and completely different to anything that's gone before, so if you'd like to know more about it or request an info pack then do call **Soft Byte** direct on **01691-828556**. Alternatively speak to **Carol** on **01270-628414** and she'll be happy to help. At a time when many knitters feel in the doldrums about machine knitting, it's wonderful to have something new to sing about.

Before I go I've another song to sing and it's a change of date for **Iris Bishop's** concert, which has always clashed with **Machine Knitting LIVE!** at Bournemouth. Her dates have moved and she's promised to come next March and be our guest speaker. On that happy note and with an **Indian Summer** promised, I'll leave you to enjoy the magazine and join me by fitting in some knitting for all seasons.

Natural Charms

For a lovely homemade look this Christmas choose the natural good looks of **retro inspired ribbons**. The heart-warming shades of brick red and natural cream provide an old-fashioned, vintage look in a variety of designs from Christmas trees, reindeers, hearts and stars as well as a Merry Christmas message. Added to the mix you'll find an alpine-inspired floral design, a red grosgrain with cream edging-stitch and a polka dot design. **Christmas Natural Charms** are perfect for embellishing stockings, wrapping up gifts, decorating cards, adding a finishing touch to a party table or festooning garlands and the tree. Available in 7, 15 and 25 mm widths, choose retro ribbons on compact natural reels in 3, 4 and 5 metre lengths or buy it by the metre. Prices vary according to design and width, from approximately 30p - £2.42 per metre. For stockists call **01453-883581**, e-mail Berisfords@stockistenquiries.co.uk or visit www.berisfords-ribbons.co.uk

It's a gift

This month's selection strays from our usual path to introduce some good reading gifts for friends and family, with reader savings from Search Press

Busy girls

The **Busy Girl's Guide To Sewing** from **David & Charles** will appeal to everyone who thinks she has no time to craft. The book offers quirky projects that can be completed in anything between 30 minutes, four hours or spaced over a few weekends. The projects are easy to follow and produce speedy, exciting results which are perfect for anyone who needs their creativity to fit around their busy lifestyle. The hardback book costs **£14.99** and the **ISBN** is **978-0-7153-3868-1**.

Family favourites

Calendarwizard.co.uk makes it easy to share your photos, so the whole family can enjoy them this Christmas. You can have your family photos printed on calendars, diaries and notebooks, all in simple modern designs on beautifully thick paper. Simply choose your photo gift, upload your digital photos and order. It's really that easy. They print and ship all photo products within five days, but order soon as Christmas is around the corner. Available from **www.calendarwizard.co.uk**, prices start at **£4.99** with **free p&p** if you enter **Code 261210** at the basket.

STITCH, CLOTH, PAPER AND PAINT

by **Angie Hughes**
Angie Hughes' comprehensive guide to making enchanting mixed media artefacts, will delight both beginners and advanced crafters. It includes an extensive techniques section that leads into three beautiful projects. Step-by-step photographs and text take even a novice through to producing wonderful works of art. Numerous variations and alternative designs provide inspiration for even veteran crafters. Previously published in hardcover (ISBN 9781844482337) at £14.99 it's now in paperback.

STEAMPUNK SOFTIES

by **Sarah Skeate and Nicola Tedman**
Create the best-ever steampunk character dolls from one book. They're great-looking projects, but easy enough for novices. All the characters share key steampunk characteristics and are rooted in 'Jules Verne' type past that never quite existed. Clear blueprints and step-by-step instructions are supplied for every character.

Many have dual roles such as a Lady making an excellent paperweight. Go on, get sewing and unleash your inner steampunk!

Crafters' Market

Dear Anne
I think I may not have told you that I organise the **Crafters Market** every **Tuesday** in the car park at the **Taverners** in **Godshill**. We also do a lot of summer fairs and fêtes so my knitting machines are working constantly, especially the garter carriage and I just hope they don't wear out! Since I've been doing the Crafters Market selling my knitwear, lots of people

have said, "I have a knitting machine but haven't used it because I couldn't get on with it". My reply was simply, buy **Machine Knitting Monthly** and they could soon be knitting garments like the ones I am selling. I always take a copy with me and there was quite a bit of interest in the magazine so let's hope the sales will go up! Best wishes from **Linda Collins** on the **Isle of Wight**.

Attention all Club Secretaries! Why not treat yourselves to a day out at one of these great venues? Whether it's a trip to stock up on yarn or a day out at a show, there are bargains to be had and plenty to be learned, so don't put it off any longer - call up today

Craft Fayre

Fenland Machine Knitters are holding a two day **Craft Fayre** at the **Oliver Cromwell Hotel** at **March** on **Friday 18th** and **Saturday 19th November**. There are lots of different crafts including, hand-crafted wooden gifts, decorated hessian bags, a lady covering old tired comfy shoes, a hat maker and willow basket maker. There's free admission and a raffle for two charities. The hotel postcode is **PE15 9LH** and please call **Barbara** on **01354-651734** for more details.

Bill King Special

There's just time to let you know that **Bill King** is heading for **Lancashire**. **Barbara Fenton** is secretary for **Longton MK Club** near **Preston** and she's organised a day of knitting, when **Bill** is coming to inspire and teach everyone. The date is **Monday 31st October** and the venue is at **Longton**. Readers in the area who try **Bill's** ideas in the magazine and would be interested in joining in the fun should call **Barbara** on **01772-684712** for more details.

New products or plans for a lecture or exhibition? Whatever is happening, if it's of interest to other knitters, we'd like to hear about it. You can write to us at the usual address given on page 3 or e-mail mail@machineknittingmonthly.net

Tuition needed

Hi Anne

I live in the **Rhondda Valleys** and I've just bought a second hand knitting machine. I was wondering if there were any machine knitting clubs in this area or somewhere I could go to get tuition as I've no idea how to follow patterns or use the machine. I would be grateful for any help. Thanks, **Michelle Matthews** in Ferndale, Mid Glamorgan.

Club speakers if you're a club speaker and would like to add your name to our list then call us or drop a line - you'll find the address on page 3

Always found in stitches!

Hi Anne

Now the nights are drawing in it's a sure sign that Autumn and Winter activities are about to get underway again. Just so for **Angus Machine Knitters** who meet weekly on **Wednesday evenings** in the **Upper Hall** at the **British Legion**, Helen Street, **Arbroath** from the **7th September**. If you'd like to look in on us then come along and see if it's for you (free of charge on your first night) with no obligation. It's not necessary to have a knitting machine of your own to join in the fun. Sometimes we can help you acquire one if you'd like. Our members come from all over Angus and it may even be possible to lift share.

Our first meeting this session was all about the care and maintenance of your knitting machine, with a hands on workshop. Knitting for others will take the form of Hats for Heroes and hand knitters can join in too! Come and find out more. Our group project will be a waistcoat with the style and pattern yet to be agreed on. Project work usually culminates in two garments being knitted at the club, which are subsequently raffled. Last year's project was very popular with many members knitting a copy or variation of the jacket at home. For more information please contact our Organiser **Catriona Little** on 01307-461916 or our Secretary **Wilma Stewart** on 01241-870787. Oh and one more thing - we're always found in stitches! Kind regards from **Gwen Mackintosh**.

FOR ALL YOUR MACHINE KNITTING NEEDS

Dear Anne

This month our readers have lots to tell and share. If you've a favourite suggestion, a story to tell or a point to make then share it with us by writing to Anne at the usual address on page 3 or e-mail mail@machineknittingmonthly.net

It's come full circle for Joan

Dear Anne

The local church has been holding coffee mornings on Saturdays with a 'bring and buy' stall so I knitted (by hand) several of my little figures. They didn't sell for some time, but when the summer visitors arrived off they went and I made a few more, but wanted something different. I couldn't think of anything until MKM arrived. In the Dear Anne section a reader had a hand knitting pattern for a mouse, but wanted one to knit on the machine. Your reply mentioned 'our own Joan Lafferty' had produced one many years ago and duly printed it. I had quite forgotten this, but mice would answer my idea for something different. So I had to translate my original machine pattern back to hand knitting. Circle complete!

Talking of mice, I have an amusing story about them. A few years ago my computer mouse packed up. My son,

House Manager alert!

who has internet sources for these things, lent me one that he keeps for such an emergency, while he sent off for a new one. Unfortunately this one also stopped working. So off I went to the office and told the House Manager that I had two dead mice in my flat. She was all set to rush in and deal with them, until I explained they were computer mice. I tried

this on recently with the House Manager who replaced the previous one, but there was no panic this time. She knows I knit all sorts of animals and guessed what I'd been up to. As a farmer's wife, she said she would not have panicked had they been real mice because she was used to dealing with them on the farm! Best wishes to you and all the readers and I'll keep in touch whenever I can.

FEEL THE WIDTH

Dear Anne

I wonder if you can help me, because I recently purchased a Knit Leader to use with my Brother 260 chunky machine and have found a problem. The maximum width of 40 stitches is 184 cm but my samples are coming out at 220 to 223 cm, making them too wide for the number of needles on the machine. The instruction book is not very helpful, so will I be able to use it for anything over double knitting? I feel sure that others may have encountered this problem. Thank you and yours sincerely, Margaret Wilkins by e-mail.

We posted Margaret's letter on the website and she quickly received the following suggestion, which she's sent to help others and it reads:-

Dear Anne

Thank you for your email directing me to your website. Another reader was having problems as well and a reply came saying 'look in the

accessories of the Brother 260 and a set of stitch numbers should be included'. Well I spring cleaned a chest full of knitting and sewing bits and pieces and yes, there they were hidden under several books and bags of felt including all the sizes that I need. Thank you very much. Sincerely,
Margaret Wilkins

CAN YOU HELP?

Dear Anne

I live here in Co Limerick, Ireland and I'm trying to locate a carriage for a Knitmaster 260. Let me explain, I was supporting our annual hospice fund-raising day. This machine was sealed in its box within another sealed box and for sale in a jumble sale marquee. I donated €30 (Euros) and bought it blind. When I got it home it was completely unused and I have the needlebed and masts but it's minus the toolbox and carriage with fabric presser, as well as the row counter. Can anyone help? There should also be a ribber, but which model fits it? I would be glad of any help. I would be willing to pay carrier costs and a donation to a charity of your choice for a carriage and would love a ribber for it. Best wishes from **Chrissy** by e-mail.

If you can help Chrissy, please get in touch with Anne and she'll pass on details.

CHAT LINE

Hi Anne

I recently wrote a letter to the chat line expressing a desire for a web edition of your magazine. It would make a lot of sense in my opinion. I am sure you already have to scan all the pages of the magazine before publishing and it is just a few more steps to putting it on line. Most knitting and crochet magazines here in the States cost about \$25 US dollars. A subscription to yours is almost \$120 US dollars. That's a huge difference. I don't mind paying it because it's a great magazine and I value all my issues. It would also be nice to have an archive set up of all old issues that people could either pay one price to view all or pay by the issue like it is now. Thanks for listening, **Ronny Woods** by e-mail

Dear Anne

As a Great British Bake-Off judge and celebrity cookery writer I am appealing to your readers during National Cupcake Week to get creative in the kitchen for Meningitis UK. From a Mad Hatter's tea party, to a bake-off with your friends, there is so much fun you can have with the charity's Time 4 Tea fundraising initiative this autumn. Meningitis is the disease which parents fear most. As a mother and grandmother, to find a vaccine which would protect future generations would be a wonderful achievement, which is why I'm honoured to

be supporting Time 4 Tea. I'm offering one of my favourite cake recipes – Ginger and Treacle Spiced Traybake – to everyone who signs up at meningitisuk.org/time4tea or by calling 0117-947 63 20. Party balloons, colourful bunting and a selection of Twining's tea samples are some of the treats you can expect in the Time 4 Tea pack along with my delicious recipe. Happy baking!

WAITING FOR A CALL

Dear Anne

I have had a frustrating time with my latest knitting venture. My garter carriage does not work, my ribber needs expert help to join to my back bed - you name it, it has happened! I think back to the days when I could ring a 'repair man' and he would come to my house and spend the best part of the day making soothing noises and leaving everything purring. I am 80 now and do not drive, so taking my equipment somewhere is not easy. Where are all the lovely repair men living now? Have they all retired? I hope there is someone out there just waiting for my call! Best wishes from **Eileen Brown** in Eltham, London SE9.

KNITTING BUDDY

Hello Anne

Recently a lady from Kent rang me, asking about her Brother 950i and garter carriage and she mentioned she couldn't find anyone locally to talk to. I said I would check out if there was anyone near her, but didn't get her number. Unfortunately I had a second call at the same time from another lady wanting a Knitting Buddy, so I couldn't pick up the first lady's number. If I remember correctly she was a 'returning knitter'. If the lady spots this letter and can ring me again, I will be able to point her in the right direction. It's nice to know that the

Knitting Buddy service seems to be helpful, as I often get people ringing up and it is so interesting to talk to other knitters. Hoping to hear from the reader again and best wishes **Denys Cave** in Bottesford

HELPING HANDS

Hi Anne

Just a follow up for you to let you know that I have received quite a bit of e-mail response from machine knitters who would like to transform their knitting machines by removing the discolouration. I started receiving them before my September issue arrived, due to the shipping times to the USA. It seems most are a bit timid to remove any of the knitting machine parts and it makes me wonder how many machine knitters are not deep cleaning and greasing their valuable machines. It has been nice to help those machine knitters and thank you for including my letter in the magazine. If you would like to list me as a Knitting Buddy I can assist with Brother garter carriages, Brother 910 and the 'secret' sponge bar many don't know about, Brother or Knitking 890 models with or without punchcards, Knit Leader and ribber, Brother 260 and ribber, machine maintenance for all Brother machines and (of course) machine restorations. Thanks and with warmest regards from **Tom in Las Vegas, USA**

Style file

I know we love our knits but when there's a chill in the air, we all need at least one new stylish coat or jacket. The latest designs will look wonderful with our warm knitted wardrobe and are simply topping, says **Sally-Ann Carroll**

Just the jacket

Here's the perfect little jacket to add a touch of class to your winter wardrobe. If you've a knitted dress that you've worn to death but can't bear to throw away, well now you don't have to. What do you think of the colour? It's easier to wear than you think.

Lime green jacket £110. **Dress** £110, in sizes 8 to 20, by Minuet Petite (01582-399809)

Check it out

As you already know (hopefully), a cape is currently bang on trend. I'm sure you'd probably prefer to knit your own, but if you decide to hit the shops, there's plenty of choice available. For maximum coverage and versatility however, knit or look out for the longer length. Too short a cut would not be very flattering.

Check cape £149.

Jeans £59, in sizes 8 to 18, by Mint Velvet (0845-456 2200)

The crème de la crème

Isn't this cream coat utterly delicious? Cut to a longer length it will make you look and feel a million dollars. On the other hand, take a look at the beanie hat. Worn at a jaunty angle, it would be perfect for either town or country. Surely you could knit one in no time at all.

Cream coat from £100, in sizes 12 to 34, by Fifty Plus (0871-2312000)

Boot camp

Every new knit deserves at least one new pair of boots. Tan or oyster, well it's up to you but why not buy both?

Leather boots £110, in sizes 3 to 9, by Hotter (0800-083-8490)

Twinkle toes

Not just for evening, this silver sparkle necklace would look wonderful with one of your stylish black knits.

Necklace £18, by Marks & Spencer (0845-302 1234)

Neck to neck

You can't fail to fall in love with this striking turquoise jacket. Take a look at the stylish and clever scarf detail. This should be easy to copy when you're knitting a cardi of your own. Keep to the same colour or why not add a contrasting shade? It will look utterly fabulous.

Turquoise wool jacket

£289. **Trousers** £99, in sizes 10 to 22, by Elegance (0844-557 5507)

Furry nice

A fur collar instantly adds a touch of glamour to any item. Are you tempted to splash the cash and buy this particular coat? If not, why not add a faux fur collar to one of your chunky cardis? It's a brilliant and relatively easy way to update an old favourite.

Oatmeal wool and cashmere coat

£200. **Dress** £110, in sizes 10 to 20, by Alexon (01582-399813)

Red alert

Not everyone needs a full-length coat and this particular jacket is an excellent alternative. Softly quilted and reasonably priced, it would complement any of your favourite casual knits. For instant brightening power, red is a colour you can't possibly beat.

NOTES

Before knitting, prepare any punchcards or electronic sheets needed from charts provided. Note that punchcard patterns as shown may have to be repeated until card is a suitable length for knitting. Punchcards require two rows of holes punched to start and

finish of card for joining. **Electronic machines** place pattern over centre 0. Programme machine for pattern before commencing knitting. Reverse switch 1 for fronts. When knitting sleeves, program machine to knit upside down. **Punchcard machines** turn card back to front for fronts. Insert card upside down for sleeves.

Dear Readers

After months of hard work and fine-tuning, the new look MKM website is finally here. Read on to see what Anne has to say...

All change please

26 November 2008 12 Anne

There's a New Look

The new look in the magazine has been a huge success, and we've been working hard to make Nick's great design work on-line! I hope you like it and find it easy to use - let me know what you think by clicking here and then scrolling down to the bottom of the page. Comments are one of the many new features we've introduced in this update. We know that knitters love to chat, so now you can do that right here, by adding your ideas to articles, letters, events and much more. Machine Knitting needs our support to keep going, and I hope you'll find this site helps you to do that.

IDEAS

Add a bit of Italian chic with **Guizzo**, the embroidery yarn from Alessandra Filati at Uppingham

MEASUREMENTS

To fit an average adult head.

TENSION

30 stitches and 40 rows to 10 cm, 4 in measured over stocking stitch in 4-ply Acrylic (tension dial setting approximately 6).

For perfect results, please check your tension carefully.

ABBREVIATIONS

For a list of the abbreviations we use, please turn to page 62.

NOTES

We used purl side of knitting as right side. 'E-wrap' means use closed-edge method of casting on. 'Transfer alt sts' means transfer every alternate stitch on to adjacent N and push empty Ns back to NWP. Oversew end stitches of rows together to make a flat seam. When shaping in HP, always take yarn round first inside needle in HP, to prevent a hole forming.

Hat with curved brim CROWN

Begin at top of crown. Push 165 Ns

to WP. Counting from one edge, leave first N in WP, * push next 3 Ns to NWP. Leave next N in WP. Rep from * across Ns, leaving last N in WP (42 Ns rem in WP). Using MT and WY, cast on and K a few rows ending with carriage at right. Using MC, K 2 rows. Push centre N from each group of 3 in NWP back to WP (alt Ns are now in WP). Set RC at 000. K 20 rows. Push rem empty Ns from NWP back to WP. K 40 rows for side of hat. Using C, K 40 rows.

Shape top of crown Transfer alt sts. K 20 rows. Transfer alt sts remaining in WP. K 2 rows. Using WY, K a few rows and release from machine.

BRIM

Push 50 Ns to WP. Using MC, cast on using e-wrap method. Set RC at 000. Using MT, K 11 rows. Set carriage to hold. * Push 4 Ns at opposite end to carriage to HP on next 6 rows. 26 Ns rem in WP. Push 4 inside Ns at opposite end to carriage from HP to UWP on next 6 rows. K 22 rows *. Rep from * to * 8 more times. Push 4 Ns at opposite end to carriage to HP on next 6 rows. 26 Ns rem in WP. Push 4 inside Ns at opposite end to carriage from HP to UWP on next 6 rows. K 11 rows. Cast off.

FREE SERVICE A number of readers have volunteered to give help and advice to beginners or those returning to machine knitting after a long break. Our Knitting Buddies are not trained professionals so remember not to ask for or expect the impossible! This is a free service, but please understand that calling at 10.00 pm for an hour-long chat is not reasonable. For this service to work, do remember that co-operation is essential.

Please turn to Page 13 if you rang Knitting Buddy Denys Cave last month

“If you’ve a special request for one of Ruth’s designs, do let us know and we’ll publish it in a future issue”

Hat with turned back brim

CROWN

Work as for Crown of Hat with Curved Brim.

BRIM

Push 50 Ns to WP. Using MC, cast on using e-wrap method. Set RC at 000. Using MT, K 278 rows. Cast off.

MAKING UP

Both hats Using sewing thread, join side seam of crown. Thread a length of C through loops of first row knitted in MC. Remove WY. Pull up yarn and secure. Thread a length of C through stitches of last row knitted in C. Remove WY. Pull up yarn and secure. Tuck one half of hat inside other half with purl side outside. With sewing thread, join cast on and cast off rows of brim. Fold brim in half with purl side outside. Pin brim to colour change row of crown, easing crown and brim to match. Sew brim to crown, allowing seam to ‘give’.

Hat with curved brim To form curve, gently pull along fold and outer half of brim.

Hat with turned back brim This may be worn with brim folded in half or turned fully back to become a ‘pill box’ hat.

Both hats Thread hat elastic through edge of crown to fit, if necessary. ■

Pippin Designs

Many of you will remember Ruth and her lovely **Pippin Designs**. She’s now retired, but her patterns have always been popular and Ruth still receives requests. As she’s unable to help, we’re reproducing some of her patterns in the magazine and we’re most grateful for her permission. Many clubs now include hand and machine knitters so as Ruth’s original pattern included hand knit instructions, we’re including them here. Don’t forget - if you’ve a special request for a **Pippin Design**, do let us know.

Take a break and browse around our Trading Post. There's a great selection of machine knitting items you can order directly through us.

ORDERING IS EASY

Simply fill in the coupon or write out your order on a plain sheet of paper and send it to us, together with your remittance. We can accept cheques or postal orders. Alternatively, call us on 01628-783080 and place your order by telephone. We can accept most cards including Mastercard, Maestro/ Switch, Am-Ex and Visa. Please do not send cash.

AVAILABILITY

We do not anticipate that any item will be sold out, although all items are offered for sale subject to availability. It is possible that prices may have to change without notice, due to circumstances beyond our control. However, this is unlikely to happen if an order is placed whilst the current magazine is on sale. If you are concerned about availability and cost, please telephone us before ordering.

DELIVERY

You can shop with confidence in the Trading Post, because all orders will be sent to you direct from the manufacturer. All orders will be processed promptly, but you should allow 28 days for delivery. Please include a telephone number with your order; it will be treated with strictest confidence but will speed up delivery of your order should there be a query. If you have any queries, we shall be pleased to help if you telephone us on 01628-783080.

MINIMUM TOTAL ORDER

There is a minimum total order value of £5.00.

POSTAL CHARGES

There is no additional charge for postage and packing in the UK. Prices quoted are fully inclusive. Overseas postage is charged at cost.

RETURNS

If you should have reason to return any goods purchased through Trading Post, please contact the supplier direct. We regret that we are unable to accept returned goods at our offices, but we will investigate any complaints.

A Helping Hand

In this month's popular feature, **Alice Wilmshurst** includes more hints, tips and ideas for all Passap knitters

THE FRILL OF IT

Maisie Hayward sent in this useful tip to stop frilling ribs and suggests that gentle persuasion is all that's usually necessary. Pulling only distorts them and she's found that if four tubular rows are knitted, the second two at a higher stitch size than the first two rows, the resulting cast on edge has a wide enough tubular section to thread through a narrow knitting needle or wire when the knitting is removed from the machine. She uses the lower ends of her orange strippers for this. All that's then required is a very gentle 'stroking' between finger and thumb, so the edge lies level and straight. Whatever you do, don't pull it. If you decide to try the stripper then it needs to be used right across the row.

SIMPLE BABY SHAWL

Maisie Hayward sent this pattern for a pretty baby shawl, which you might like to try.

Yarn Approximately 170g of any suitable 2/30s Acrylic

Tension Use a single thread and stitch size 3½.

Pattern N/AX, 2 rows 0 and 2 rows left arrow key.

To knit Cast on over 150 Ns on both beds with 1 extra N at back left. Place pushers under all front bed Ns. Work racking cast on and K 20 rows in pattern for border. Change pushers to 1x1 except for first and last four to give side borders. Continue knitting until work is square (about 600 rows). K 20 rows with pushers aligned to match beginning in pattern for border. Cast off loosely.

PASSAP ARAN

Maisie Hayward reminds us that Passap machines knit beautiful Aran fabrics. Using the unique pusher system, we can alter the pattern across the row without necessarily repeating it. We can get the most out of this by knitting in a design which is original. Maisie developed and altered a pattern originally published in Knitting Machine Digest No.9 to illustrate the point. She's made many of these sweaters and each one is different.

The basic pattern stitch is full needle rib, with pushers on the front bed arranged 1x1. The locks are on N/AX with 2 rows at 0 and 2 rows with left arrow key. If the pusher arrangement is altered, it will form a panel of different patterning. The garment can therefore have a central panel or two side panels and a simple panel up the centre of the sleeve really sets it off.

Yarn 350g 2/30s used double for garment and triple for all welts.

Stitch size 4½ for pattern on Duo 80 with orange strippers.

Size to fit up to 97 cm, 38 in.

Measurements Finished width of garment 52 cm, 20½ in. Sleeve length 46 cm, 18 in.

Note Stitches refer to those on front bed only.

Back and front alike Cast on 80/80 sts and put 1 extra N in WP at back left. After working ribs, set machine for patterning by bringing up front bed pushers. Arrange remaining pushers for 1x1. Suggested N arrangement for front panel:-

||| ||| || |||
| • • • | • • • | • • | • • • |

K 172 rows. Cast off 10 sts at each end for armhole by transferring front bed stitches to back bed and then casting off these stitches and returning pushers to rail. (Use spare yarn to cast off sts on opposite side to lock.) K 120 rows for armhole. Change to K/K and K 24 rows. Cast off loosely.

Sleeve Use triple yarn to knit welt in 1x1 rib. After working rib, put handle down and push up all in-between Ns. If wished the heel stitches of back bed Ns can be transferred to adjacent empty Ns to make a less open join. Suggested N arrangement for centre sleeve panel:-

||| ||| |||
| • • • | • • | • • • |

Note Cast off must be loose.

To make up Fold neck rib in half and stitch down. Join about 5 cm, 2 in along top edge to form shoulder seam. Sew sleeve head into armhole and join underarm cast off to top 5 cm, 2 in of sleeve.

WARM HANDS

Although reader Mrs Johnson is happy knitting her gloves in about two hours, Alice reckons it's not for the faint-hearted! The size is intended to fit a child aged four to five years and it's a good way to use up oddments. We can make a pair of gloves out of very little yarn and it's surprising how far 30g will go. Mrs Johnson uses ordinary patterns and translates them into machine jargon as she goes along. She reminds us that some folk think it's very difficult, but she can make a pair of gloves in a couple of hours. That's not a great accomplishment, but a great time saver compared to hand knitting.

Yarn Oddments of 4-ply.

Stitch size 7 on Duo 80 (6½ on Duo 5).

First glove Cast on 40 sts and rib 26 rows using stitch size 3¾. Set RC at 000. Transfer sts to back bed for st st. Change »

to black strippers, locks on CX/CX and stitch size 7. With transfer comb take 20 sts at left (half the sts) and lift them to front bed. This leaves next row starting at lock side. K 10 circular rows. RC shows 20. Prepare thumb sts. On back bed leave 2 sts then using length of coloured yarn, hand knit next 5 sts and push ends inside out of the way. Continue knitting palm until RC shows 49. Using length of contrast, slip 15 sts from right side of front and back bed leaving 10 sts.

First finger Lift heel of st below at inside edge giving 12 sts. Using CX/CX, K 16 circular rows. RC shows 32. K 2 tog; all around leaving 3 sts on each bed. Break yarn, slip through all open sts and pull tight.

2nd finger Lift 5 sts from front and back for 2nd finger and 2 sts from base of first finger. K 17 circular rows. RC shows 34. Finish as for first finger.

3rd finger Work as 2nd finger but K 16 circular rows. RC shows 32. Finish as before.

Little finger Move lock to left before starting, so yarn end is on inside. Work as before but K 13 circular rows. RC shows 26. Finish as before.

Thumb Unpick coloured yarn from palm and lift open sts onto Ns. (5 sts on front and back beds.) Lift heel of st at each side to close any gaps. K 14 rounds. RC shows 28. Finish as before.

Making up Sew in ends, at the same time darning any holes at bottom of fingers. Join rib at cuff.

Second glove Knit off thumb sts with coloured yarn at left side of front bed. After washing, stretch gloves to shape.

FANTASY JACQUARD

This is one for the Deco, suitable for all cards with A. We need orange strippers, handle down, locks on N/AX (left arrow key), Deco on 4 and stitch size around 4. K 2 rows in first colour and 2 rows in second colour.

Reversible Jacquard Along the same lines, this one is also for the Deco and suitable for all cards with A. This time we need black strippers, handle down, locks on BX (left arrow key)/ BX (left arrow key), Deco on 4 and stitch size around 5½ on back bed and 4½ on front bed.

DAINTY PATTERN

I thought you might like to try this very dainty pattern taken from an old tatty pattern book. Use one end of a strong yarn (I used 1/20) with 3 Ns in WP and 3 Ns in NWP on both beds. * Rack 1

“Some people think it very difficult, but I can make a pair of gloves in a couple of hours”

N to right, K 1 row; rack 1 N to left, K 1 row. Rack for 5 more rows, then K 1 row without racking and start the pattern again.

LAZY SUSAN

Here's a quick and easy neckband from Maisie Hayward. Having cut and sewn the front neck, join the sleeve leaving one seam open at the shoulder. With right side facing, pick up sts onto alternate Ns on back bed but before going further, push down the bulky sewn edge between the beds, using flat edge of orange ruler. (If the ruler can get between the beds, the strippers will too!) Handle up and arrange in-between front bed Ns for a 1x1 rib. Using doubled yarn K 8 rows at stitch size 4¼, 16 rows at stitch size 4½ and 8 rows at stitch size 4¼. Transfer front bed sts to back bed and using black strippers, K 2 rows on back bed only at stitch size 6¼. Finish with waste yarn, fold neck to front and backstitch down.

Fantasy-Jacquard with Deco (all cards with A)

Reversible-Jacquard with Deco (all cards with A)

FIX IT

Although this is a bit out-dated now, it's still useful and I wrote it after a reader dropped a line to say:-

Dear Alice

I've a spare Knit Radar and would like to fit it to my Passap Duo 80. Could you please tell me how you fitted yours permanently to your Passap? Is there a fitting to be fixed to the lock at the back, so it can record the rows? Perhaps a drawing might help my husband to get mine fitted. Thanks and hoping you can help.

Alice writes My reply which was in KMJ No.26 brought in so much mail that I think a reprint may be welcomed by my new readers. It's very difficult to explain because it wasn't actually fixed to the Passap. What Bert (my late husband) did was to fix a board (a) to the Passap table on which he then screwed a small shelf (b and c) as shown in the diagram. There's a space under the shelf for my small tools (e). He fitted two Philips screws for the Radar to slide onto (f) and a hefty block of wood would have done just as well.

At that time I'd a Passap Duo S, which was adapted with a 4-colour changer, Deco and so on. Before this was altered, the machine used a yarn feed mast, but I only had a small bent rod shown as (g). I then inserted this 'gadget' in the back lock where there's a grooved hole (h). The small shelf (c) and Knit Radar were positioned in such a way that the point of the 'gadget' touched and slid in the groove of the Knit Radar. Each time the lock passed to the right or left, it clicked one row and worked brilliantly. Using the Knit Radar my successes were almost always guaranteed. Since it was fitted, my failures totalled just four. It is, of course, much more sensible to purchase a Forma to fit onto your machine.

By the way, does everyone know that the Knit Radar and Passap blocks are interchangeable? Also, for those of us who bought our blocks with the Knitmaster 323, it's worth considering purchasing a new set. I've the raglan set complete and it includes not only raglan but also set-in sleeves, adult and toddler, rompers, trousers, pants, toddler coat, skirt and one adult dress. All sheets include an illustration and measurements printed on them and it's such an improvement on the original supply.

HIGH PERFORMANCE

by Alice E Wilmshurst

I made the following Performance Table for myself and use it frequently. It must be used in conjunction with the Duomatic 80 stitch book, the one with the coloured stitch patterns on the front and back No. 33 205 03, otherwise this table becomes meaningless. I do hope you find it useful. I've experimented with each stitch pattern and learnt quite a lot in the process. ■

Baby doll

Finally, here's a diagram pattern for knitting a pram suit for a 16 inch baby doll. The original was knitted on a Passap Duo 80 in stocking stitch using stitch size $6\frac{1}{2}$ and three ends of 2/30s yarn. Don't worry too much, but the tension was 29 stitches and 42 rows to 10 cm, 4 in. The front bands were knitted K/K for 67 rows at stitch size 4 over 8 stitches. For the buttonhole band, work buttonholes when RC shows 5, 23, 43 and 63. Knit the back and fronts then join the shoulders. With right side facing, hang the armhole onto 39 stitches on front bed to knit the sleeve, following the diagram. Finally, join base of foot on leggings.

Time and knitting wait for no man

Sometimes we receive letters which are longer than usual and this month **Margaret Cummings** got to thinking why she hadn't done any knitting for ages

All winter I longed for the warmer weather when I could sit at my knitting machine without feeling cold! I'm lucky that I've a 'back sitting room' where the knitting machines live. It isn't the main lounge and it faces south but the boiler struggles to heat the radiators and unless the sun is shining in the winter, it can be cold. So spring arrived, the garden needed a lot of attention and the ravages of the cold winter meant that I'd lost lots of plants. I set out with the intention of not doing so much this year and taming it down a bit. That way I'd have more time for knitting, but that was a silly promise. Yes, there's as much in the vegetable and the flower beds as there usually is and no machine knitting got done.

My grandson, Joshua, loved the sleeveless V-necked jumper with robots that I made for him and casually asked if he could have some for school, but without the robots. We vaguely talked about putting the school name on, but decided it was too long. However, as Joshua said, "then it will be easy won't it Grandma and it won't take you long!"

THE THICK OF IT

I next had the idea of buying a Brother 260 chunky with a ribber. It had sat in the cupboard at the club, not used much and Anne (who organises our club) wanted to clear out the cupboard. I got really excited at the prospect of knitting Aran and thick DK sweaters. I eagerly came home with it, set it up and thoroughly cleaned it, only to discover the ribber was short of the connecting arm. It's the bit that connects the main carriage to the ribber carriage and you thread

the wool through it. A phone call to Anne confirmed it was possibly still in the cupboard.

"Never mind, don't do a special trip to look for it but wait patiently until the next meeting", I jovially said to myself. Then I had the nagging doubt that perhaps it wasn't there at all. Foolishly I saw one on eBay and by this time I was sure it wouldn't be in the cupboard. I was eager to get knitting, so I bought it, fitted it when it arrived and decided to start knitting.

STRAIGHT AND NARROW

narrow boat enthusiasts and we've a boat in the family which was built in 1927. It's presently loaded with 20 tons of coal, some of which is coming to Lincolnshire to keep the stove going next winter. Stoke Bruerne Traditional Boating Festival was due to happen in the middle weekend in June and we were taking our eldest grandson, Joshua who asked, "please grandma could you make me a T-shirt which says, 'Martin's Apprentice' across the front". His Uncle Martin always calls him his apprentice when he visits the boat.

Any idea of knitting went out of the window as I got together a new T-shirt, using pieces of scrap material and Bondaweb. I carefully traced the letters onto the Bondaweb and then ironed the letters onto the material, cut them out, peeled off the Bondaweb and then ironed them onto the T-shirt. I machine stitched the letters on as well, just so we didn't lose any. The result pleased Joshua and he couldn't wait to proudly wear it. As you can see the T-shirt went down really well and he proudly displayed it for the cameras! There was no time for any knitting as next came Braunston Traditional Boat Festival at the end of June and this time we went in the ancient VW camper van taking Joshua with us and the T shirt of course.

MAKE THE CONNECTION

Meanwhile back at Donington Knitting Club Anne produced the missing part for the chunky machine so I'd now two connecting arms! I think I'll have to sell it again on eBay, unless of course anybody wants one? Then I discovered that I needed

Joshua sits on the top of the cabin, still wearing his favourite T-shirt

a new bar for the ribber, because it didn't have one. I now began to despair that I'd ever try this machine out, let alone get some knitting done. I ordered one, which arrived the next day and I was well impressed with the quick delivery. Alas, in my haste, I ordered the wrong one which I've had to return and they're kindly sending the correct one. It should arrive next week so hopefully it's time to do some knitting!

DIARY DATE

Clair Crowston is visiting our club shortly and we're all taking our machines to the club to knit a top with weaving detail of ribbon on the sleeves and neckband. It's one of her own patterns and I'm really looking forward to it. I've ordered the ribbon for most of the club members from Yeoman Yarns, who have a wonderful selection of colours. I fully intend to have the front and the back of the jumper knitted for our next meeting and Clair will demonstrate how to weave the ribbon into the sleeves.

Until then I'm busy packing the camper van again to go to Alvecote for yet another boating festival. Joshua isn't coming with us this time, but we're taking Dingo the dog back to see his owner. Unfortunately he had a stroke

Dingo the dog

Motor boat Kestrel and Butty Verbena

so we brought him home with us from the first festival, as getting on and off the boat is really difficult for him. He's making a wonderful recovery, is 14 years old and loves doing the locks and being on the boat. So after this next weekend, I should have the correct ribber bar and hopefully some time to start knitting. We shall see! ■

Machine Knitting

Making garments

PART 31

Beryl Jarvis and her students are almost at the end of their first session, so it's a good time to review the past term and put together the achievements

At this time of year, the lesson we follow often involves a lot of discussion and not much action! We're usually at the end of the first term and up to this point, the beginners have been learning basic techniques and those returning have been taking the basics a stage further. The subject of this lesson is Making Garments and we put together all the work we've done in previous weeks. I like this to be a joint class because, hopefully, students who returned to the class now have their own knitting experiences to add. Both beginners and improvers are able to make a valuable contribution to the discussion.

TENSION SWATCH

Let's start with a tension swatch. I'm sure we've all lost track of the number of times this subject has been covered in the magazine. However, if you still need instructions for making a tension swatch, please refer to my **Info Sheet 1.1 How to Knit and Measure a Tension Swatch**. My students will bring in a tension swatch they've previously knitted and then measure it with a Green Ruler. They put the 'S' side next to the first stitch to be measured at the left and read off at the 40th stitch, to give the number of stitches in 10 cm (see Diag. 1). Using the side marked 'R', they then measure 60 rows to give the number of rows in 10 cm (see Diag. 2). If you don't have a Green Ruler, my Info Sheet also gives instructions on how to measure in centimetres and convert it into stitches and rows to 10 cm.

I personally find it is easier to work out calculations using centimetres. However, if you're of an age where centimetres are a foreign language, there's absolutely no reason why you shouldn't measure in inches - then turn the tape measure over and use the centimetre equivalent. If you're unsure at any time, you can always look back at

I do encourage all of my students to try to knit their own designs

your tape measure and check what the measurement would be in inches.

If you're a knitter who likes to follow patterns word for word, once you know how many stitches and rows there are in 10 cm, you can compare your tension with the tension of a knitting pattern. These are almost always given as stitches and rows to 10 cm. If your tension matches and you wish to knit a garment exactly the same size and shape as the pattern then away you go.

In practice, however, this rarely happens! Your arms may be shorter or longer than the pattern or perhaps the neckline is too high for your taste. The beauty of knitting a garment to your own pattern is that you can make

the design any shape you wish. If you work from a printed pattern, I always suggest that you take a pencil and note all changes on the pattern. Then, if you want to follow the pattern again in the future, you can easily erase the amendments and make new changes. Again, if the tension matches, you're in luck but if not, you may find the Conversion Factor useful. Often one of the students returning to the class will report to fellow students how useful they have found this method.

CONVERSION FACTOR

First divide the tension of your swatch by the tension given in the pattern to give the Conversion Factor (CF). For example, if your swatch measures 32 stitches in ten centimetres and the pattern gives 28 stitches in ten centimetres, divide 32 by 28 to give a stitches CF of 1.14 (taken to two decimal points). Note that this is not rows or stitches or centimetres and always divide stitches by stitches and rows by rows. Repeat this with the number of rows to obtain the rows CF.

Next, go through your pattern, multiplying all stitches by the stitches CF and all rows by the rows CF. For example, if the pattern says cast on 160 stitches, multiply by the stitches CF of 1.14 and this gives you 182.4 say 182 stitches. Do the same thing with the rows and make all changes to the pattern in pencil. I'm sure you can see that by using the Conversion Factor method, it's possible to knit almost any garment in a totally different yarn and stitch structure. By the way, the Conversion Factor is explained on my **Info Sheet 1.10 Magic Formula and Conversion Factor**.

MAKING A PATTERN

If you know how many stitches and rows there are in ten centimetres, by dividing the number by ten you also

Classwise revisited

Beryl Jarvis ran a very successful course in Leicester for more than ten years and her **Classwise** series of articles is based on life in her classroom and her teaching. So many knitters are returning to machine knitting and asking for our help that we've decided to publish the articles again. This will not only give beginners a chance to follow through the course, but also allow those returning to machine knitting to make a fresh start. Beryl's **Info Sheets** are still available to readers and if you'd like a list of the full set, including prices, please send Beryl a self-addressed and stamped envelope to: **Beryl Jarvis**, 90 Asfordby Road, Melton Mowbray, Leicestershire LE13 0HR. Tel 01664-850418. E-mail beryl.jarvis@ntlworld.com

Diagram 1

Diagram 2

know how many stitches or rows are in one centimetre. So, to make your own knitting pattern, first find another garment in your wardrobe that fits well and draw sketches of the garment shapes. The drawings don't have to be to scale, nor be works of art! Measure the sections of the garment in centimetres and put the measurements onto the sketches.

Now decide which direction each piece is to be knitted. Multiply all width measurements by the number of stitches you obtained in one centimetre and then multiply all lengths by the rows in one centimetre. You've now almost written your own pattern. There may be slopes where increases and decreases will have to be made, but these can be calculated easily to come at regular intervals. I use what I call the Magic Formula. I've written about it in the magazine in the past and details are on my **Info Sheet 1.10**.

As I mentioned at the beginning of this article, Making Garments is our subject this time, but we also look at garment shapes and consider how techniques learned in previous lessons can be incorporated into the students own designs. I do encourage all of my students to try to knit their own designs. I personally feel that it's much more satisfying than following other designers' patterns word for word, using the same shade of the same yarn and producing the same garment. Why use a knitting machine if you

only reproduce someone else's ideas? I do think we must all be creative in our own way to ensure that machine knitting needs are different for the future. As you'll gather, I'm on my hobby horse again!

During our last session, I also try to cover using charting devices. If several students have their own, they bring them along and we have a hands-on session. Charting devices are an invaluable piece of equipment for those knitters who wish to use their own patterns, so I'll talk about them next time. ■

Some of the knitters attending the demonstrations on the east coast

Picture Perfect

Tony Bennett was recently invited to demonstrate on the east coast of Australia and jumped at the chance

I was recently invited to demonstrate on the east coast of Australia in Sydney, Newcastle, Dapto and Canberra and jumped at the opportunity. The knitters over there are not only very keen, active and talented but also support workshops like this in good numbers. I love chances like these to share ideas and techniques with like-minded people; it's exciting and stimulating for all involved so we can all learn in one way or another. I decide to demo two quite different topics Picture Perfect and Confessions of a Machine Knitter.

PICTURE PERFECT

Picture Perfect is a workshop I developed based on a quite simple concept and everyday images. I walk each morning and, armed with my trusty mobile phone, started taking pictures of relatively ordinary things - or are they? So often I think we look but don't see just what's in our line of vision. Rather than simply seeing a tree, look at the colour and texture of the bark, leaves or roots.

Right in front of us is a source of inspiration that's ideal to develop into

a form of knitted fabric. Using this as a beginning, the idea was not to create or copy the visual but to use it as a starting point and see where it could take us. It involved some quite simple punchcard designs, which were manipulated in different ways. The use of colour and combinations of yarns and colours as well as stopping and starting the card at different or random times is great fun and so rewarding.

Cutting floats creates quite unexpected yet exciting results and

hand weaving additional feature yarns to give three dimensional textures to our fabric are just two of so many wonderful ways of enhancing our knits. It's also fabulous fun. Images such as tree bark, shadows of fencing wire, security grills and pebbles are just a few of those I used. We all see these or similar items every day but how many times, if ever, do we consider them as a starting point to develop a knitted fabric or garment? Give it a try and you'll discover that it can be a very interesting and rewarding journey.

CONFESSION TIME

Confessions of a Machine Knitter was a special request topic and I'd no idea how challenging it would turn out to be. It's about growing up in the coal-mining

village Harworth, east of Tickwell in Nottinghamshire and my journey to Dormani Yarns and Dormani Designs in Perth, Western Australia. I focused on pivotal points and created garments which tied in with these events and locations. It became quite a cathartic experience and, in the end, one which I totally enjoyed. It included things such as creating texture on a basic black knit to represent the veins of coal in the mine. Next I made a jacket to bring back memories of the sea voyage to Oz, with colours of the ocean, the sky and sea bird feathers. It really was huge fun and inspired quite a few more interesting pieces. At no cost, it's something we all can do to inspire our machine knitting. Be creative. ■

FLIP SIDE *fair isle*

This month
Bill King
tempts us to
look at the
back of Fair
Isle fabric

Frequently considered a nuisance, the floating yarns at the back of Fair Isle fabric have recently been enjoying their 15 minutes of fame. In the never-ending search for new ideas, designers have lately hit upon the idea of juxtaposing face and reverse sides of Fair Isle to add texture and contrast to traditional patterns.

Industrial power machines are able to transfer from one bed to the other at will and knit Fair Isle on either bed, making it a very simple matter to get the contrasting bands of floats and Fair Isle. However with patterning

facilities only on one bed, the domestic machine knitter has to turn the fabric on the machine using either a garter bar or waste yarn, but it need not be too many times in each garment piece.

SAMPLE 1

This sample is knitted turning the fabric regularly after two repeats of the diamond pattern, using a selection of beige and brown. As the fabric is equal on face and reverse, the curl effect (characteristic of all single bed fabric) is equalised making it ideal for items with no seams such as scarves.

SAMPLE 2

Using a tonal mix of grey and beige plus traditional Argyll and snowflake patterns gives a contemporary twist to a classic Fair Isle. Small bands of reverse fabric add interest and provide a textured division between the larger patterns. The yarn colours conveniently cover up any mistakes, due to my using Mylar sheets which were drawn out many years ago!

SAMPLE 3

Abandon all your rules about tasteful colour theory, let intuition take over

Sample 3

Points to Note

- Choose patterns with short floats for the face side.
- Woollen yarns are ideal for floats, as they stick together nicely when washed.
- Try any oddments of fancy yarns for reverse floats, to make the most of small quantities.
- If you really don't want to turn the fabric on the machine, try using face and reverse for different garment panels such as sleeves in floats, back and front in ordinary Fair Isle.

“ Turn the fabric on the machine using either a garter bar or waste yarn ”

in such bright colours, but they'll definitely add to the eccentricity of the design.

SAMPLE 4

Diagonals take over in this mix of black, cream and pink. The patchwork Fair Isle, as featured in October 2009, is the technique used here with the work turned after one side has been knitted. The effect gives one side of the diagonal in ordinary Fair Isle and the other side has the floats. After knitting the rib start knitting with black and cream Fair Isle across all needles. Next push two needles to holding position at opposite side to carriage every two rows until all needles are in holding position and one side of the diagonal is knitted. Turn work on the machine, bring all needles to holding position and change to pink and black yarn pushing two needles to working position every two rows and knit the other side of the diagonal. ■

Sample 4

and assemble a quirky mix of bright clashing colours with a few 'heavies'. I used donkey brown and dark teal to tame it down a bit. If you're not too keen on turning work on the machine, do larger areas on each side to reduce the number of

turns. I always change yarns after each turn and knit two rows plain, to make a feature of the broken line you get with striped reverse fabric. It's also another good way to get away with any mistakes. They'll certainly not be inconspicuous

Yarn guide

We sometimes give a yarn guide thickness on our patterns and the approximate weight of the original yarn used is shown below. We do not quote a thickness for those yarns which we feel cannot be substituted.

1, 2 & 3 are extra fine yarns Fine, medium and full bodied one ply yarn including 2/30s

4, 5 & 6 are fine yarns Fine, medium and full bodied two ply yarn including 2/16s

7, 8 & 9 are fine to medium yarns Fine, medium and full bodied three ply yarn including 3/8s

10, 11 & 12 are medium yarns Fine, medium and full bodied four ply yarn including 4/8s

13, 14 & 15 are medium to thick yarns Fine, medium and full bodied double knitting yarn including 6/8s and 8/8s

16, 17 & 18 are thick yarns Fine, medium and full bodied Aran knitting yarn including 12/8s

19, 20 & 21 are extra thick yarns Fine, medium and full bodied chunky knitting yarn including 16/8s

Mock rib instructions

Used for welts, cuffs, neckbands and other edges on single bed machines without a ribber.

Push the number of main bed needles given in pattern to working position. Push every alternate needle back to non-working position for a 1x1 rib or every third needle back to non-working position for a 2x1 rib. It may be necessary to reduce this number by one needle at one or both edges to keep the rib even. (Increase the stitches after the mock rib has been worked to give the same number as the pattern.)

Using main tension and waste yarn, cast on and knit a few rows ending with carriage at left. Set row counter at 000. Using at least two full sizes tighter than main tension, knit the number of rows given in pattern for rib. Using three full sizes looser than this tension, knit one row. (This loose row gives a neat fold line.) Return to two full sizes tighter than main tension and knit the same

number of rows as before. Push empty needles from non-working to working position and make a hem by placing loops of first row worked in main yarn evenly along the row. Make sure that each empty needle holds a loop to prevent a row of holes across the work. Unravel waste yarn when work has been removed from machine. After garment has been blocked to size, insert a metal welt bar or thin, clean piece of wood through the hem and pull firmly downwards to draw the stitches of mock rib closer together. Set the stitches by steaming lightly on the wrong side, if pressing instructions permit.

Quick cast-on

This method can be used not only for speed but also when the edges are either hidden or to be gathered by pulling up yarn end. With carriage at right, push alt Ns to WP. Use tension dial setting and either MY or WY as given in pattern. K 1 row. Carefully hook on the cast-on comb. Push remaining alt Ns to WP and K 1 row. The carriage is back at right. Cont as given in pattern instructions. When knitting is removed from machine, pull yarn end at cast-on edge to gather up sts or, for a straight edge, pull yarn end to remove any slack and fasten off. Your manual will describe this method of casting on although it may be called by a different name and may not use a cast-on comb. ■
